

Library Services & Technology Act Grant Awards 2006

Literacy Materials for Children and Families

Grant funds were used to purchase high-interest circulating fiction and non-fiction materials for children, young adults, and families in support of Goal VII of the Georgia Five-Year LSTA Plan. Materials included books, video recordings, circulating computer software, or other materials that supported the goals of the grant, including some materials in languages other than English.

Vacation Reading Program Mini-Grant

The Vacation Reading Program (VRP) mini-grants were designed to encourage libraries to purchase public collection materials, professional materials, and story-time aids to stimulate interest in reading, library collections, and libraries in support of VRP.

Network Security Grant

Grants in amounts up to \$2000 were offered to public library systems for the purchase, and installation of firewalls and/or other security features designed to protect the library's local area network and workstations, and to secure sensitive data.
